Instructions for Completing the Total Project Budget

Refer to the example budget on page B4. Proposals not conforming to this format will be considered noncompliant and will be rejected.

General Information

Each proposal must contain a detailed line item budget broken down into three categories: Personal Services, Operating Expenses and Administrative Overhead. Additionally the budget must identify the amount being requested from Klamath River Restoration Grant Program (KRRGP), the amount being provided by the applicant and the total cost for each line item. The total project budget and task budget must contain <u>all</u> project costs. Budget examples can be found on pages B4.

- Projects approved for funding will be required to submit invoices matching this budget format.
- It is recommended you calculate, create and save your budget in Microsoft Excel® or similar spreadsheet program, as doing so will avoid costly and unfortunate budget errors; then export your budget to Microsoft Word® or compatible word processing program with the rest of your written proposal. If the proposal is funded, the information can be sent electronically to DFG staff without reformatting it. A fill and print budget template is provided on page B5.

Personal Services Costs

All employee costs which are required to complete the proposed project.

- List each personnel classification, their total hours, hourly pay rate and the calculated total. The calculated total must equal the line item calculation, including both the cost-share and requested amounts. (Do not include staff benefits in the hourly pay rate.)
- A "Staff Benefit(s)" amount must be listed as a separate line item and calculated as a percentage.
- Do not list subcontracts in this section. Subcontracts are listed as Operating Expenses.

Operating Expenses

Include all materials, contractual services, equipment, and incidental costs.

Contractual Services are those necessary for the implementation of the proposal for which the applicant will subcontract. These services are undertaken by a provider external to the applicant's organization.

List each subcontractor on a separate line.

Other Operating Expenses: Expenses related to the operation of the proposal.

- Provide as much cost detail as possible and practical. Use unit costs when applicable (per lb., per day, cubic yard, linear foot, etc.).
- Purchase of equipment with KRRGP funds is not normally allowed. See Section II, #2, for equipment definitions and restrictions.

Travel

Expenses must be consistent with state guidelines for reimbursed travel expenses. Per diem and mileage rates may not exceed State of California standards: lodging \$84 plus tax (certain counties have a higher standard), per diem \$40 per day, and \$0.445 per mile (based on traveling over a 24 hour trip).

1602 Permitting Fees

Fish and Game Code, Section 1609 authorizes the Department to recover the total costs it incurs to administer and enforce its Lake and Streambed Alteration Program by charging applicant fees for Lake and Streambed Alteration Agreements (agreement). The actual fees charged will be based on the total cost of the project. For information on Lake and Streambed Alteration Agreements visit the DFG website at http://www.dfg.ca.gov/1600.

Standard Agreement				
If project costs is:	Permit fee will be:			
Less than \$5,000	\$200			
\$5,000 to less than \$10,000	\$250			
\$10,000 to less than \$25,000	\$500			
\$25,000 to less than \$100,000	\$750			
\$100,000 to less than \$200,000	\$1,100			
\$200,000 to less than \$350,000	\$1,500			
\$350,000 to less than \$500,000	\$2,250			
\$500,000 or more	\$4,000			

Administrative Overhead

Administrative overhead should be applied only to projected administrative costs that cannot be recovered in other budget categories.

• Administrative overhead in excess of 10% must be justified on a separate attachment.

HABITAT RESTORATION PROJECT LANDOWNER AGREEMENT (HB, HI, FL, FP)

(Name of Applicant) (Address) (City, CA Zip)

STREAM HABITAT RESTORATION PROJECT AGREEMENT

(Project Title)

I. PURPOSE

The following agreement details requirements of both the landowner and the applicant regarding establishment of a stream habitat improvement project on real property controlled by the landowner named below. Said property is located approximately (*two miles upstream*) from the mouth of (*creek name*), tributary to (*tributary name*) (see map attached to proposal).

I, (<u>landowner name</u>), hereinafter called "Landowner", am aware that a stream habitat restoration project has been submitted to California Department of Fish and Game, hereinafter called "DFG", for funding consideration. I understand the objectives of the project as proposed in the (<u>project title</u>). The project has been explained to me by (<u>applicant name</u>), hereinafter called "Applicant". I support the goals of the project.

II. ACCESS PERMISSION

Landowner hereby grants Applicant and DFG representatives permission to enter onto real property owned by the Landowner to perform pre-project evaluation; and, if an agreement for the project is entered into between the Applicant and DFG, Landowner grants permission to perform the stream habitat restoration work, conduct project inspections, and monitor project for needed maintenance for a 10 year period following project completion. Access shall be limited to those portions of Landowner's real property where actual stream restoration work is to be performed and those additional portions of the real property which must be traversed to gain access to the work site.

III. DURATION OF NOTICE

The term of this agreement shall be (<u>number of</u>) months for work performance and 10 years for maintenance, inspection, and monitoring purposes from the last date of execution shown below. Applicant or DFG shall give Landowner reasonable actual notice and any necessary arrangements prior to each needed access. Reasonable and actual notice may be given by mail, in person, or by telephone.

This agreement can be amended only by prior written agreement of both parties executing this permit.

IV. LIABILITIES

Reasonable precautions will be exercised by Applicant to avoid damage to persons and property.

Applicant agrees to indemnify and hold harmless the Landowner and agrees to pay for reasonable damages proximately caused by reason of the uses authorized by this permit, except those caused by the gross negligence or intentional conduct of the landowner.

FISH SCREEN PROJECT LANDOWNER AGREEMENT (SC)

(Name of Applicant) (Address) (City, CA Zip)

FISH SCREEN PROJECT AGREEMENT

(Project Title)

I. PURPOSE

The following agreement details the requirements of both the landowner and the applicant regarding a fish screen construction project. This project is on the real property controlled by the landowner named below. Said property is located on (*creek name*) (see map attached to proposal).

I, (<u>landowner name</u>), hereinafter called "Landowner", am aware that a fish screen construction project has been submitted to the California Department of Fish and Game, hereinafter called "DFG", for funding consideration. I understand the objective of the project as proposed in the (<u>proposal name</u>). The project has been explained to me by (<u>applicant name</u>), hereinafter called "Applicant". I understand and support the goal of the project which is to protect anadromous salmonids from entrainment.

For the purposes of this agreement, the project will include any portion of the irrigation/diversion system which is constructed or modified as described in the proposal. I understand the purpose of the fish screen project is to prevent salmon and steelhead from becoming entrained within the diversion system and allowing them to remain within the (*creek name*). This protection of fish will facilitate the recovery of salmonids in the (*watershed name*). The project can only be successful if the fish screen project is operated and maintained by either the Landowner or Applicant (whoever is designated in this agreement).

II. ACCESS PERMISSION

Landowner herby grants Applicant and DFG representatives permission to enter onto real property owned by Landowner to perform pre-project evaluation; and, if an agreement for the project is entered into between Applicant and DFG, Landowner grants permission to perform the fish screen construction work, conduct project inspections, and monitor project for needed maintenance following project completion. Access shall be limited to those portions of Landowner's real property where actual fish screen construction and related diversion system work is to be performed and those additional portions of the real property which must be traversed to gain access to the work site.

III. REQUIREMENTS

Applicant agrees to:

Contingent on receiving funding from DFG, provide monies for purchase of materials and supplies to complete the project, on Landowner's real property, as described in the project description in the proposal.

Provide the heavy equipment and labor and materials to complete the described project on Landowner's real property.

(Landowner or Responsible party) agrees to:

Operate and maintain the fish screen project, for a period of not less than 10 years, from the last date of execution shown below. Landowner or responsible party will operate the fish screen to effectively prevent the entrainment of fish whenever water is being diverted and the possibility of entrainment of salmonids exists. Landowner or responsible party will maintain the fish screen so that it is functioning as designed and is meeting DFG/NOAA Fisheries criteria for fish

screens (criteria at time of construction). This shall include regular inspection during operating periods (at least biweekly), lubrication, replacement of worn parts, and removal of debris which may affect the operation of the screen. In the event of an act of nature which results in partial or complete failure of the project, Landowners and/or Applicant will not be held responsible for costs incurred up to the date of the act of nature. Acts of nature include, but are not limited to floods, earthquakes, volcanic eruptions, wind storms.

IV. DURATION OF NOTICE

The term of this agreement shall be (<u>number of</u>) months for work performance, and 10 years for operation, maintenance, inspection, and monitoring purposes from the last date of execution shown below. Applicant or DFG shall give Landowner reasonable actual notice prior to each needed access. Reasonable and actual notice may be given by mail, in person, or by telephone. This agreement can be amended only by prior written agreement of both parties executing this agreement.

V. LIABILITIES

PROVISIONAL LANDOWNER AGREEMENT

(Name of Applicant) (Address) (City, CA Zip)

Access/Entry Agreement

(Project Title)

I. PURPOSE

The following agreement details requirements of both the landowner and the (<u>applicant name</u>) regarding the (<u>project name</u>). Said property is located (<u>two miles upstream</u>) of (<u>creek name</u>), tributary to (<u>tributary name</u>).

I, (<u>landowner name</u>), hereinafter called "Landowner", am aware that a habitat restoration project grant application has been submitted to the California Department of Fish and Game (DFG) for funding. The project has been explained to me by the (<u>applicant name</u>). I support the goals of the project. If the project is selected for funding, the Landowner will enter into a ten year access agreement that will be project specific.

II. ACCESS PERMISSION

Landowner hereby grants (<u>applicant's name</u>) and DFG representatives permission to enter onto real property owned by the Landowner to perform pre-project evaluation. Access shall be limited to those portions of Landowner's real property where actual restoration work is proposed to be performed and those additional portions of real property that must be traversed to gain access to the work site. The applicant will contact the Landowner at least 72 hours prior to any visit. At no time will DFG representatives access the property without the applicant unless expressively given permission by the Landowner.

III. DURATION OF NOTICE

The term of this agreement shall commence upon signing of this Agreement and terminate on (end date).

IV. LIABILITIES

(Applicant name) agrees to indemnify and hold harmless the	cant name) to avoid damage to persons and property. Explain Landowner and agrees to pay for reasonable damages is agreement, except those caused by the gross negligence of
